This rebate is for the benefit of Massachusetts residential electric customers of: Cape Light Compact, National Grid, NSTAR Electric, Unitil and Western Massachusetts Electric Company. This rebate may not be combined with any other utility or energy efficiency service provider offer and may be subject to change without notice. The participating utility or energy efficiency service provider reserves the right to conduct field inspections to verify installations; this right to access extends up to one year after date of application, even if rebates or incentives have been paid. Limitation of liability: Participating utility or energy efficiency service provider does not guarantee the performance of installed equipment expressly or implicitly. Customer agrees that the Energy Efficiency Program Provider (EEPP) has the unilateral right to apply for any ISO-NE capacity payments or environmental credits resulting from this energy efficiency project, and agrees not to file for such payments or credits either directly or indirectly. Contractors agree to provide the EEPP with such further documentation as the EEPP may request to confirm the EEPP's ownership of such benefits. Participating utility or energy efficiency service provider has no liability whatsoever concerning (1) the quality, safety, and/or installation of the water heater, including its fitness for any purpose; (2) the estimated energy savings of the water heater; or (3) the workmanship of the installation contractor. Participating utility or energy efficiency service provider makes no representation regarding manufacturers, dealers, contractors, or materials. Sponsors will not be responsible for any tax liability that may be imposed on the customer or contractor as a result of the payment of rebates.

Terms & Conditions: Heat Pump Water Heater must be installed by a MA licensed contractor and/or plumber and installed within the MA electric service area of one of the participating sponsors, be UL listed, installed in accordance with the National Electric Code and manufacturer's specifications, and must conform to all applicable municipal, state and federal codes, standards and regulations, as well as program requirements. **Must be ENERGY STAR qualified with an Energy Factor (EF)* of 2.3 or greater and have a minimum 10 year manufacturer's warranty. Applicable only when replacing an existing electric storage tank water heater or in new construction.** Rebate amount not to exceed the cost of equipment (excluding sales tax and all installation costs). Eligible heat pump water heaters can be found on www.masssave.com/HPWH. Program is subject to change without prior notice, including rebate levels. *Energy Factor (EF) is the ratio of useful energy output from a water heater to the total amount of energy delivered to the water heater. The higher the EF is, the more efficient the water heater.
