# STIEBEL ELTRON

MEGA

Min. 30 psi, Max. 150 psi

White ABS

## MegaBoost Tankless Electric Water Heater Booster

#### > Booster for electric or gas tank water heater

#### Features

- > Significantly increases mixed water volume
- > Greatly decreases tank recovery times
- > High limit switch with manual reset
- > Easy installation 1/2" NPT connections
- > Exclusive design prevents dry firing
- No additional T&P relief valve needed (Check local code)
- > 7 year leakage/3 year parts warranty

- Copper sheathed heating element housed in copper cylinder
- > On-demand, continuous hot water
- > 99% efficiency
- Flow sensor & electronic control activated for silent operation
- > Conveniently mounts on wall
- > Engineered and manufactured in Germany

**Operating Pressure**

### Installation Options and Output Projections

#### Specifications

The electric tankless water heater shall be equipped with several copper sheathed heating elements housed in a copper cylinder. The number of heating elements shall be three. The copper cylinder that houses heating elements shall be equipped with a dedicated single pole bimetal type high limit that is attached to the top dome of the cylinder. These safety high limit switches shall have a manual rest that interrupts power at 185°F. The heating elements shall be controlled by a number of triacs (power transistors) which are soldered into the circuit board. The triacs shall be cooled by the incoming cold water. The units shall be equipped with a flow sensor with a miniaturized turbine that feeds the water flow rate information into the main circuit board. The output temperature shall be adjustable between 86°F and 140°F. The temperature adjustment shall be via a knob that is positioned on the front cover. The water connections shall be designed for standard 1/2" NPT female adapter. The housing of the unit shall be made of high impact polycarbonate plastic. The unit shall conform to UL Std. 499, be certified to CAN/CSA Std. C22.2 No. 64, and be certified by WQA against NSF/ANSI/CAN 372 for lead-free compliance.
